

**Dear all members of Professional Ski Instructor Association of Japan (SIA),**

We heard about the damages on Kansai Province occurred by the Typhoon and the damages on Hokkaido Province occurred by the earthquake through the news.

Spontaneously we were concerned about your members who have her or his snowsports academy near Kansai Province, and were especially concerned about your members whose hometowns are located in Hokkaido Province, because we came to know many members of SIA from Hokkaido Province through the meetings and events we participated together during these years. We hope all your members are free from any mishap occurred by the Typhoon or the earthquake from our heart. And if any member of SIA had trouble, we would like to help as long as we can. Please feel free to communicate with us about this matter.

At the same time we hope we further co-operate on the matters of 'Asia Ski Forum'. If you have any progressive decision or opinion since our June meeting in Tokyo, please let us know.

Kindest regards,

**Korea Ski Instructors Association**

**President Park, Jae Hyuk**
